PGDM — Marketing Mgmt
LIBA, India
BSc. Visual Communication
SRM University, India

CERTIFICATIONS

- Certified Scrum Product Owner (CSPO)
- Google Agile Project Management
- Pendo Product-Led Growth

RAAGHAV S.H

Senior Product Manager

B2B SaaS · Manufacturing & Industrial Tech · 0-to-1 Platform Launches · IP & Patents

SUMMARY

Senior PM with 7+ years across B2B SaaS, manufacturing tech and marketplace products. Built and launched 0-to-1 enterprise platforms from concept to live, scaled a ₹730 Cr RFQ pipeline, filed a patent, and led product strategy through investor funding discussions. Experienced across the full product lifecycle — discovery, roadmap, delivery, and adoption. Building AI-powered side projects using Claude, VS Code, GitHub, and Vercel.

EXPERIENCE

- Senior Product Manager** — *Machine Maze* Mar 2024 – Present | Bangalore
- **Led the 0-to-1 build and launch of Precision X** — a full-stack B2B manufacturing ecosystem digitizing the entire lifecycle from RFQ to delivery.
 - **Scaled the RFQ pipeline 21x**, growing platform RFQ value from ₹34 Cr to ₹730 Cr through iterative workflow improvements and funnel friction reduction, maintaining avg feasibility TaT of 27 hours.
 - **Owned the full product lifecycle** — discovery, ideation, PRD, roadmap, UX/UI design, GTM launch, and success metrics monitored across every release.
 - **Integrated Autodesk 3D viewer**, enabling users to visualize 3D STEP file parts within the RFQ workflow without leaving the platform.
 - **Filed India patent (Application No. 202541011592) and Global PCT application** — led complete IP documentation and end-to-end workflow filing as named inventor.
 - **Delivered investor-ready pitch decks**, including a product explainer video; led PMF analysis to position Precision X as a scalable platform for global manufacturing.
 - **Drove C-suite and board-level alignment** — translating complex manufacturing workflows into clear product narratives for funding discussions and strategic reviews.
 - **Led adoption across cross-functional teams**, identifying friction points across user journeys and resolving them iteratively — embedding the platform as the single source of truth across the manufacturing value chain.

- Product Manager** — *Machine Maze* Nov 2022 – Sept 2023 | Bangalore
- **Built an investor KPI dashboard** tracking user adoption, supply chain health, and revenue metrics — key artifact in securing a VC funding round.
 - **Automated finance workflows end-to-end**; reduced RFQ-to-quote TaT to 48 hours, increased vendor allocation by 5x, indexed 250+ factories.

- Product Manager** — *Matex Technologies* Jan 2021 – Nov 2022 | Chennai
- **PM for a B2B sourcing marketplace** (80 corps, 10,000+ vendors); ₹330 Cr+ procurement value and ₹33 Cr+ savings across 11,000 RFQs.
 - **Scaled B2B SaaS from 1 to 20 corporate clients** via product-led growth and UX redesign; integrated APIs to automate 1M+ SKUs and index 1M+ vendor records.

- Business Analyst** — *Run Adam Sports* Oct 2018 – Aug 2020 | Chennai
- **Drove product for a B2C/B2B2C sports & fitness marketplace** (~15,000 registrations); led sprint ceremonies, backlog prioritization, and UX collaboration.

PERSONAL PROJECTS — Built independently using AI-native tools (Claude · VS Code · GitHub · Vercel)

- **AI PDF Editor** (Browser Tool) — Upload PDFs, select logo regions, replace or erase — Gemini API deployed on Vercel powers AI-driven edits triggered on user actions.
- **Financial Freedom Calculator** (Finance App) — Multi-currency compound interest modeler with SIP/goal tracking and interactive Chart.js visualizations. Standalone web app.
- **WordClimb** (React Word Game) — Wordle-style word puzzle in React 18 — Gemini API deployed on Vercel triggered on user gameplay for AI-powered intelligence.
